

Canadian Undergraduate Conference on Artificial Intelligence

Student Organization Partnership

March 2023 | Queen's University

Becoming a Student Organization Partner

Agreement Outline

Thank you for your interest in becoming a CUCAI Student Partner! We are excited to have your members join our community and participate in this year's conference. Here is a brief outline of our expectations as a partner, and the benefits you will receive.

Social Media Announcement

Once confirmed, we will make a social media announcement on Instagram, LinkedIn and Facebook. We ask that we add you as a collaborator or you post these to your feed. This will act as our official launch as Student Partners for the 2022/2023 school year!

Social Media Resharing

One of our main methods of social media growth happens through groups resharing our information. As a student partner, we will send you posts for you to share on your story when we have an announcement to make. In return, whenever your group would like us to share your content, we will gladly do so.

Conference Marketing

On the day of the conference, we will have numerous occasions to market your group. This will include physical banners, delegate packages, emails and more. Additionally, we will announce all of our student partners at the conference during our ceremonies. **This privilege will be reserved for groups who send 10 or more students to CUCAI 2023.**

Team Booth

During the conference, we will host a recruitment session, where companies can showcase their hiring and network with students. During this time, your club will be able to host a booth, and network with students in order to grow and network. **This privilege will be reserved for groups who send 10 or more students to CUCAI 2023.**

Thank you!

Student partners are the largest contributions to our conference; without you, CUCAI can't exist. We are truly grateful for your participation in this year's conference, and look forward to working together this year.

As CUCAI continues to grow, we are always looking for ways to improve and think outside the box. If you have any suggestions for the conference, student participation, or with this Student Partnership Agreement, please do not hesitate to reach out and help us become Canada's best undergraduate conference.

Keeping in Touch

In order to stay in contact, we primarily use Discord. We have a channel dedicated for communications between CUCAI executives and your group. Feel free to add anyone you feel will be beneficial to our partnership and to stay in the loop.

We want to be involved with your group as well! Whether communications occur over Discord, Slack, or Email, we would love to stay in the loop with your events and happenings.
